

## Creature Catcher Instructions

Have you ever watched a butterfly go by and wondered what its colors look like up close? Are they soft or maybe fuzzy? How about when something buzzes by too quick for you to really see it? Or the insects that can outrun you on their many legs! Well, now you have a fighting chance to catch up and take an exciting look!

### CONTAINS

1 Creature Catcher

### USING THE CREATURE CATCHER

Carefully remove your new Creature Catcher from its package and read all the instructions thoroughly before use.

All you have to do in order to start having fun with your new Creature Catcher is to go outdoors and begin looking for insect and bugs that fly or crawl along the ground. Remember to **READ ALL THE INSTRUCTIONS**, including what **NOT** to catch when using your Creature Catcher. The idea here is to have fun exploring and getting the chance to look at bugs and insects you might not normally be able to see up close. So, what happens when you find something? Well, that's the fun part! Go over to the insect or bug you want to catch and **GENTLY** place the net over it. Once you have the net in place, squeeze the trigger with your forefinger and the net will fold up around the insect/bug. Remember, you don't want to hurt the insect so, if it is not completely inside the net, don't pull the trigger. Butterflies, as well as other insect and bugs, have fragile wings that may be damaged if you trap it in the Creature Catcher incorrectly. Once you have examined the creature, you may want to carry along a magnifying glass, simply press the release button with your thumb and the net will swing open. If the insect or bug seems stuck or to be struggling, carefully help it from the net as it may be a bit frightened. Sounds easy, right? Don't forget the flying insects, those may be a bit more of a challenge to catch, after all, they have wings! And of course other insects and bugs have many more legs than you do so, you better be ready!

Good luck and have fun but, remember to be responsible with your new Creature Catcher. You're an explorer, so be smart and careful in the way you treat all living things in nature.

### CARING FOR THE CREATURE CATCHER

Keep the Creature Catcher clean and dry. If it does get wet, wipe it dry immediately.

Use under normal, and safe play conditions only. When not in use, store the Creature Catcher in a clean, dry area and do not leave it exposed to the elements. Occasionally, after use, wipe the Creature Catcher off with a damp cloth and inspect the net before putting it away.

Remember, if you follow the instructions and keep the Creature Catcher clean, it will provide you with tons of fun.

### CAUTION

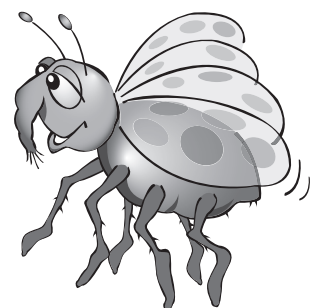

Do not leave your Creature Catcher outside or exposed to the elements.

Do not use or point the Creature Catcher at people or household animals. The Creature Catcher is not to be used to chase your pets or people around the house. Do not try to pick up other small object with the Creature Catcher. This toy is intended only to be use on bugs and insects, trying to pick up other objects may tear the net.

**DO NOT USE THE CREATURE CATCHER to collect HORNETS, BEES or WASPS!**

**DO NOT USE THE CREATURE CATCHER to capture BIRDS, SQUIRELLS or ANY OTHER SMALL ANIMALS!**

**DO NOT USE THE CREATURE CATCHER to disturb BIRD'S NESTS, NESTS or HIVES OF ANY KIND, ANT MOUNDS or the home of any animal.**

Do not catch any insect/bug that may bite or sting if frightened.  
Be careful of sharp branches and twigs that may rip or tear the netting.  
Do not use the Creature Catcher if the net is torn or ripped  
**DO NOT USE THE CREATURE CATCHER INDOORS!**  
Lastly, remember you are using the Creature Catcher to explore and learn about living creatures in nature. The Creature Catcher is not to be used to harm or injure any living thing. If you do keep the bugs you catch, make sure to place them in a proper, food and air filled container where they can be safe OR look, learn and then let them go safely back where you found them. Remember, it is your responsibility to use the Creature Catcher properly. Always respect nature.
